

Sizewell C Notice to Mariners No 17 of 2026

Marine Construction Zone AtoN Servicing

MARINERS ARE ADVISED: That on or about the 2nd April the C-Odyssey will be engaged in works to service the yellow special mark demarcating the SE corner of the Marine Construction Zone (MCZ) in position;

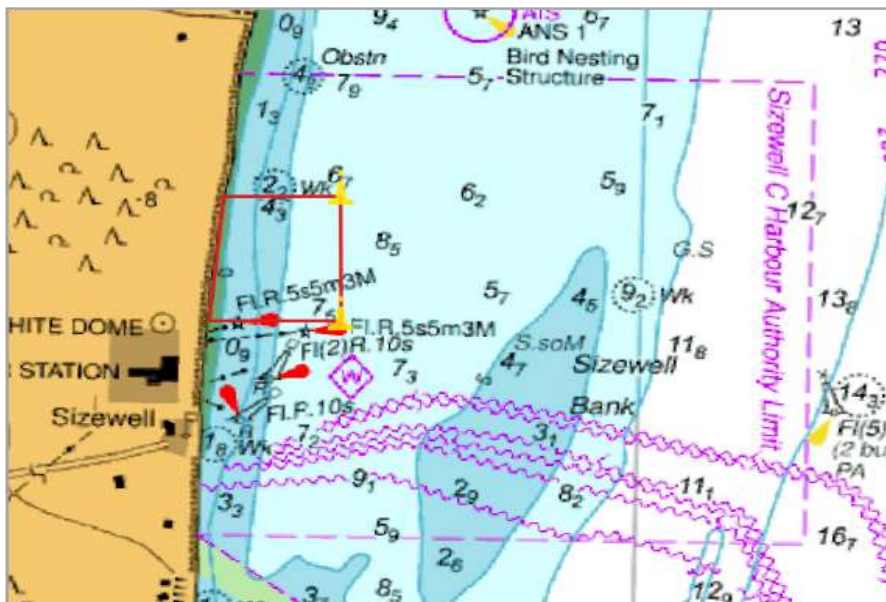

52°12'55"N 001°38'13"E

The works will entail the C-Odyssey lifting the buoy on deck to carry out the service and during this time the vessel will be severely restricted in her ability to manoeuvre. Accordingly all vessels are requested to give the C-Odyssey a wide berth and to pass at as slow a speed as is practicable while she is engaged in this operation.

Furthermore, on or about the 7th April the C-Odyssey will be engaged in works to change out the yellow special mark demarcating the NE corner of the MCZ in position;

52°13'28"N 001°38'13"E

All vessels are requested to give the C-Odyssey a wide berth and to pass at as slow a speed as is practicable while she carries out these works. VHF Ch12 will be monitored while these works are underway.

SZC Harbour Master

Date: 01/04/2026
