

Sizewell C Notice to Mariners No 32 of 2026

Intertidal Seabed Investigations Sizewell C Harbour

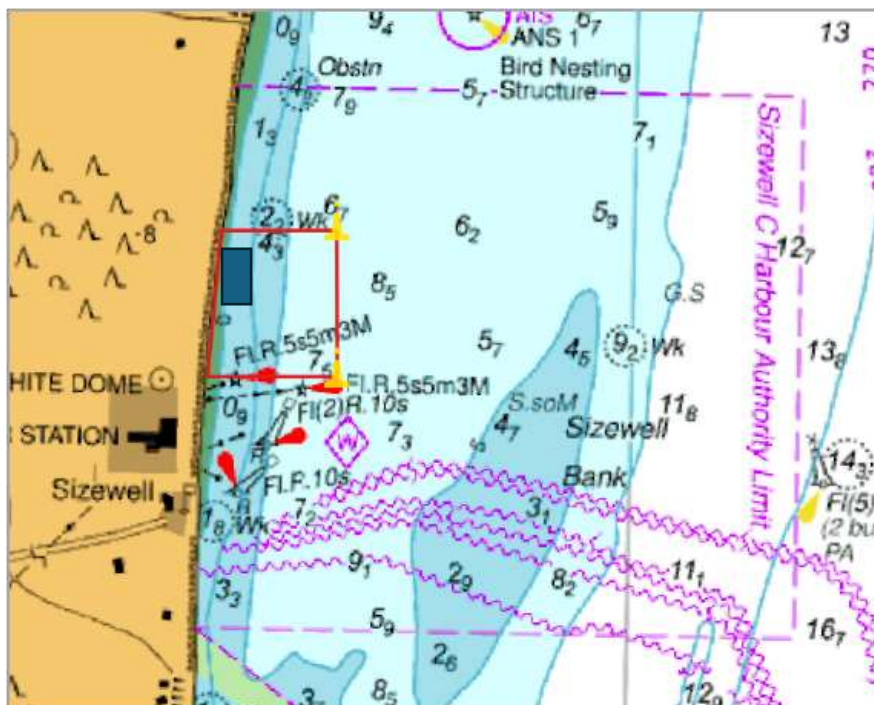

Mariners and beach users are advised that -

On or around 10th August operations will begin to investigate anomalous targets in the intertidal beach area within the Marine Construction Zone (MCZ) in Sizewell C Harbour.

The works will be carried out by divers operating from the beach and may include excavations to expose objects of investigation.

Immediate areas of operation will be stewarded to ensure the safety of members of the public and will be clearly marked. Members of the public may be excluded from these immediate areas of operation when works are underway, but otherwise public access to the beach remains unrestricted.

Vessels working in the MCZ should be aware of these works and give the area a wide berth.

Area of Intertidal Operations - shown above by blue rectangle
