

Sizewell C Notice to Mariners No 34 of 2026

Seabed Investigations and Diving Operations within the Marine Construction Zone (MCZ)

Mariners Are Advised That;

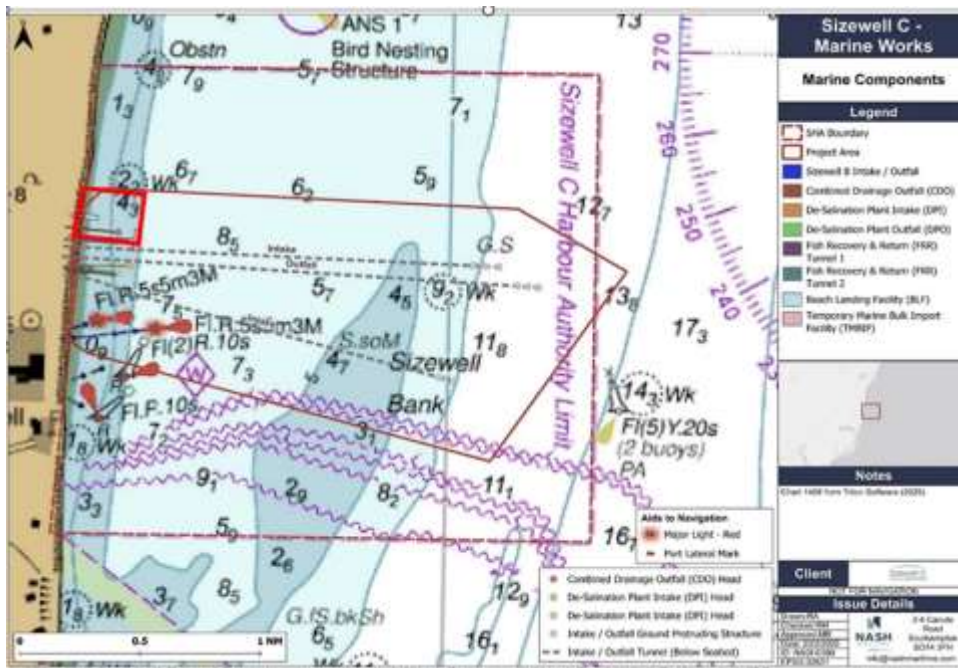

On or about the 29 August 2026, seabed investigations and diving operations will take place from the vessel **C-Odyssey** in various locations within the Marine Construction Zone (MCZ) within Sizewell C harbour. During diving operations the vessel will lie to a four point mooring spread. The operation will be supported by the CTV **NRH Ariel**.

Diving operations are likely to take place over the slack water periods for approximately four weeks, weather permitting. All vessels should give the **C-Odyssey** at least a 500m berth during diving operations throughout this period and pass at as slow a speed as is practicable.

Both vessels will maintain a continuous listening watch on VHF Channel 16 and Channel 12 and will display the lights and shapes required by the Colregs.

This chart below shows the approximate position (marked by bold red square) within the MCZ where this operation will take place.

Neil Glendinning

SZC Harbour Master

Date: 27/8/2026
