

Sizewell C Notice to Mariners No 36 of 2026

Seabed UXO Magnetometer Investigation

Mariners are advised that:

On or about the 30th September 2026 vessels will be commencing magnetometer survey operations within Sizewell C harbour. The vessels concerned are the *Fugro Valkyrie* and the *MJM Enterprise* shown below.

It is anticipated that the *Valkyrie* will commence operations around the 30th September and the *MJM Enterprise* around the week commencing 3rd October 2026. Operations are expected to continue until the end of October.

Mariners should note that some of these activities will take place within the Marine Fisheries and Recreation Zone (MFRZ shown in red on the attached chart) within the harbour. The survey area is outlined in blue

The MFRZ is normally reserved for use by fishing and recreational users, but access by these survey vessels is required to gather the necessary data.

Both vessels will be towing a survey array. Accordingly, any vessel navigating anywhere within the harbour during these operations should do so with caution and should give both vessels as wide a berth as possible

No vessel should approach survey vessel *MJM Enterprise* within 500m and no vessel should approach survey vessel *Valkyrie* within 200m. Both vessels will be displaying the lights and shapes required by the COLREGs and will maintain a listening watch on VHF Chs 12 & 16.

Neil Glendinning
SZC Harbour Master

Date: 23/09/2026
